No people in household have English (or Welsh in Wales) as a main language	924	1.2%	21,769	1.7%	1,002,072	4.3%

Definitions:

Household:

A household is defined as one person living alone, or a group of people (not necessarily related) living at the same address who share cooking facilities and share a living room or sitting room or dining area. A household must contain at least one person whose place of usual residence is at the address. A group of short-term residents living together is not classified as a household, and neither is a group of people at an address where only visitors are staying.

Household Language:

Household language classifies households by the combination of adults and children within a household that have English or Welsh as a main language. Household language uses the alternate definition of an adult and child that are used in a small number of census results.
