

Well-being Objective 6

Live Well - Create more jobs and growth throughout the county

Regeneration is the Councils' number one priority - during 2018/19 we created 419 jobs

These jobs were created through:-

Business Development and Engagement; Beacon Bursary and Incubation; Llanelli Town Centre Schemes; Carmarthenshire Rural Enterprise Fund and Community Bureau

In addition through specific world of work schemes, 951 people were supported to volunteer and 137 were supported into jobs. We secured £16.2m private sector and external funding investment. We accommodated 111 Jobs as a result of 5 Transformational Commercial property development fund projects.

Why it is important

- Increasing employability is fundamental to tackling poverty, reducing inequalities and has a dramatic impact on our health and ability to function in everyday society.
- We must tackle a GVA (gross value added) gap that is widening between UK GVA & Wales GVA; GVA is the measure of the value of the wages and profits from goods and services produced in an area.

Explaining the Results

- Employment figures in Carmarthenshire at the end of March 2019 is 71.6%, this is down from 73.7% the previous year. This is now below both the Welsh (73.1%) and UK average (75.2%). We have also moved and from 12th to 15th in Wales. The figures are disappointing as the authority has put a number of funding initiatives in place to stimulate jobs and growth in the county in the form of Property Development Fund, Carmarthenshire Rural Enterprise Fund and Business Grants.
- 38% of working age adults living in Carmarthenshire are qualified to NVQ Level 4 or above in 2018, this is up slightly on the previous year of 37.8% and just above the Welsh average of 37.8%. We are 9th highest in Wales moving up from 10th the previous year.
- According to the National Survey for Wales, 82.5% of those participated were moderately or very satisfied with their jobs, this is above previous year's result of 80%. We have moved up from 18th to 11th position in
- Median Gross Weekly Pay has reduced by 1.2% (from £517.8 to £511.4) Carmarthenshire has gone down from 4th highest wage in Wales for 2017, to the 11th highest in 2018. This is below the Welsh average of £518.6. This is a reflection of the business market conditions of Carmarthenshire, the reduction is difficult to explain as there are no significant reasons that we are aware of that are affecting wages.

Progress Made

- Delivery of the project plan for the Llanelli Wellness and Life Science Village:-
 - Continued with the development of the detail for phase 1 plus energy and infrastructure. Works are now completed to the end of the Royal Institute of British Architects (RIBA) Stage 2 requirements and a tender for ground investigation works has also been undertaken.
