35 Llangelel Ward, Pontywell Policy Unit

35.1 Area Description
The Pontywell Policy Unit lies on the confluence of the Teifi and the Tyweli, both of which are Main Rivers.

35.2 Why is this area a Flood Risk Policy Unit?
The uFMfSW (EA, 2013) highlights this area to be at risk of flooding. These surface water flood maps are useful in highlighting the flood risk from watercourse and pluvial sources. Although CaRR maps indicate 30 properties are at risk of pluvial flooding it is difficult to differentiate these from those affected by the Main River.

35.3 Flooding Events
In 2018, as a result of Storm Callum, there was significant flooding in the area during which 30 residential properties and 22 commercial properties were flooded internally. NRW have calculated this flood event as a 1 in 300 annual event probability.

35.4 Flood Defence Capital Works undertaken by CCC
None

35.5 Flood Defence Assets
None

35.6 Routine Works and Maintenance
None

35.7 Proposed Future Works
None

35.8 Flood Risk

35.8.1 Map 1: Total Properties
Map 1 over the page displays data on the total number of properties at risk of flooding. Total properties can include dwellings, garages, commercial premises, industrial premises and similar structures.

35.8.2 Map 2: Dwellings and Services
Map 2 below displays data on the residential properties and services at risk of flooding.

35.8.3 Map 3: Community at Risk Register (CaRR)
This is the most recent flood mapping from Welsh Government. This dataset depicts all properties at risk of pluvial (surface water) flooding in a storm event with a 1 in 100 probability.
