### **Assessing Impact**

#### **The Equality Act 2010**

The Equality Act 2010 (the Act) brings together and replaces the previous anti-discrimination laws with a single Act. It simplifies and strengthens the law, removes inconsistencies and makes it easier for people to understand and comply with it. The majority of the Act came into force on 1 October 2010.

The Act includes a new public sector equality duty (the 'general duty'), replacing the separate duties on race, disability and gender equality. This came into force on 5 April 2011.

#### **What is the general duty?**

The aim of the general duty is to ensure that public authorities and those carrying out a public function consider how they can positively contribute to a fairer society through advancing equality and good relations in their day-to-day activities. The duty ensures that equality considerations are built into the design of policies and the delivery of services and that they are kept under review. This will achieve better outcomes for all.

The duties are legal obligations. Failure to meet the duties may result in authorities being exposed to legal challenge.

Under equality legislation, public authorities have legal duties to pay 'due regard' to the need to eliminate discrimination and promote equality with regard to race, disability and gender, including gender reassignment, as well as to promote good race relations. The Equality Act 2010 introduces a new public sector duty which extends this coverage to age, sexual orientation, pregnancy and maternity, and religion or belief. The law requires that this duty to pay 'due regard' be demonstrated in the decision making process. It is also important to note that public authorities subject to the equality duties are also likely to be subject to the

(Equality Impact Assessment Template November 2013) –

obligations under the Human Rights Act and it is therefore wise also to consider the potential impact that decisions could have on human rights as part of the same process.

### **Carmarthenshire's approach to Equality Impact**

In order to ensure that the council is considering the potential equality impact of its proposed policies and practices, and in order to evidence that we have done so, every proposal will be required to be supported by the attached Equality Impact Assessment. Where this assessment identifies a significant impact then more detail may be required.

### **Reporting on assessments**

Where it is clear from the assessment that the likely impact on the authority's ability to meet the general duty is substantial, then it must publish a report.

### **Initial and Detailed Equality Impact Assessments**

The initial EIA (appendix 1) is a simple and quick method of assessing the effect of a policy, function, procedure, decision including financial cuts on one or more of the protected characteristics.

The Service Manager responsible for the relevant new or revised policies, functions, procedures and financial decisions must undertake, at least, an initial EIA and where relevant a detailed Equality Impact Assessment (appendix 2); EIA must be attached as background paper with reports to Executive and Scrutiny .

Burry Inlet - DRAFT SPG – January 2020.

<p><b>1. Describe the aims, objectives or purpose of the proposed function/policy, practice, procedure or decision and who is intended to benefit.</b></p>	<p>The Council is required under the provisions of the Planning and Compulsory Purchases Act 2004 to prepare and have in place an adopted LDP. Its preparation and content is governed by legislation and procedural regulations. The current LDP was adopted in December 2014, however the Council resolved in January 2018 to commence work on a Revised LDP for the period 2018 – 2033.</p> <p>Once adopted, the Revised LDP will be the land use plan for the County (excluding that area contained within the Brecon Beacons National Park) and therefore decisions will be based on its content, unless material considerations indicate otherwise.</p> <p>This Supplementary Planning Guidance (SPG) is an elaboration and consolidation of the policies and provisions of the Revised Carmarthenshire Local Development Plan (rLDP) 2018-2033 - Deposit Draft, most notably policy INF4, as well as SP 8: and CCH3.</p> <p>This SPG provides specific guidance in relation to the consideration of relevant development proposals located within the Llanelli Waste Water Treatment Works (WWTW) catchment area. Whilst Llanelli (Principal Centre) and Burry Port (Service Centre) are identified as a focus for growth in the rLDP, they are also subject to high level environmental considerations, not least the water quality of the Carmarthen Bay and Estuaries European Marine Site (CBEEMS). This SPG seeks to balance these considerations with a view to facilitating the delivery of growth within the rLDP up to 2033.</p> <p>This SPG provides a mechanism to address concerns by allowing additional foul flows to be connected subject to relevant developments taking out surface water from the combined sewer as part of a compensatory / betterment measure. In this regard, it builds upon the provisions of the established Burry Inlet Memorandum of Understanding (MoU).</p>						
<p><b>The Public Sector Equality Duty requires the Council to have “due regard” to the need to:-</b></p> <p>(1) eliminate unlawful discrimination, harassment and victimisation;</p> <p>(2) advance equality of opportunity between different groups; and</p> <p>(3) foster good relations between different groups</p> <p>(see guidance notes)</p>	<p><b>2. What is the level of impact on each group/ protected characteristics in terms of the three aims of the duty?</b></p> <p><b>Please indicate high (H) medium (M), low (L), no effect (N) for each.</b></p>	<p><b>3.
