

Wildlife in your Ward – Dafen-Swiss Valley-Felinfoel

Partneriaeth Natur
SIR GŶR • CARMARTHENSHERE
Nature Partnership

The **Carmarthenshire Nature Partnership** has produced this profile to highlight some of the wildlife, habitats, and important sites in your local area.

Carmarthenshire is justly celebrated for the variety within its natural environment, from the uplands in the north-east of the county to our magnificent coastline.

Every ward contributes to the rich and varied network of wildlife habitats that make up the county, whether that be woodlands, grasslands hedgerows, rivers or gardens.

There are still gaps in our knowledge about Carmarthenshire's natural environment and the wildlife it supports. Despite having a wealth of data, some species and pockets of special habitats remain unrecorded and

unmapped. There is always more to find out.

Wildlife and our natural environment reflect local culture and past human activity. We see this in the field and hedgerow patterns in our agricultural landscapes, and in areas previously dominated by industry where, today, new habitats develop on abandoned land. And our farm, house and street names provide clues to the history of our natural environment.

The mosaic of habitats in Dafen-Swiss Valley-Felinfoel make up an **ecological network**. If these habitats are well managed, are well connected and are sufficiently extensive, they will support a diversity of species and help to make a **resilient** natural environment.

A **resilient** natural environment

supports wildlife and provides a range of **ecosystem services**, e.g. agricultural products, pollinators, timber, drinking water, regulation of floods and soil erosion, carbon storage and recreation and inspiration.

These wards stretch out from the north of Llanelli and include both urban areas and more rural landscapes. On the more elevated land, productive agricultural pastures dominate with well-managed hedgerows and relatively few trees and only infrequent wooded areas.

An important exception to this is 'Swiss Valley', with the two Lliedi reservoirs, as well as the river of the same name that flows through it. The reservoirs were created by flooding a well-wooded valley. Species-rich habitats may have been lost but today this area provides the public with access to the countryside and the reservoirs, surrounded by woodland have valuable fen and wet woodland habitats and attract visiting wildfowl.

In the built up areas past industry influences the habitats found today – tinplate works created in the 19th century diverted water from the Dafen to form a large pond, which today is now partly occupied by wet woodland bringing valuable habitats into an urban area. The Dafen and Lliedi rivers form valuable wildlife corridors into the heart of Llanelli. Elsewhere other ex-industrial (brownfield) sites can be recolonised by a range of species – providing valuable habitats that have declined in the wider countryside. Prime development land, the value of these sites for nature should not be overlooked.

Special species in your ward...

All the species in your ward are important in some way and help make your natural environment special. Some of the species recorded in Dafen-Swiss Valley-Felinfoel wards are listed by Welsh Government as being of principal importance for biodiversity in Wales – so your area is important. Here are some species highlights from your ward.

Areas in and around towns and villages can be excellent habitats for hedgehogs, and they often prefer them over farmland. There are good records of hedgehogs in your area. 'Wild' areas/log piles/holes in fences all help hedgehogs and other wildlife in our gardens.

Nine species of bats have been recorded in your wards. The county's varied habitats (including buildings and gardens) provide a variety of habitats for bats. Did you know single pipistrelle can eat 3000 insects in one night?

Reptiles are under recorded in the county. In your wards there are only records of slow worm (3) and common lizard (2). Slow worms are often found in gardens. They have suffered declines due to loss of suitable habitat. They are great garden pest controllers.

The hummingbird hawk-moth is one of the moth species recorded in your wards. It is a day-flying summer visitor, migrating from Southern Europe. It can be seen in gardens, hovering like a hummingbird as it feeds on the nectar of honeysuckle, red valerian and other flowers.

Almost 30 species of butterfly have been recorded in your wards, including the wall – a widespread but declining, butterfly. It likes to bask on walls, rocks, and stony places. It flies from May onwards and its caterpillars feed on a variety of grasses.

How can you help?

If we want to protect the wildlife in Dafen-Swiss Valley-Felinfoel, help from people who live here can make a real difference. There are many groups and individuals recording their local wildlife and managing areas for Nature in the county.

- ➔ We need more records for your wards. There are 109 moss species but only 56 species of birds recorded.
- ➔ Want to find out more about the county's special species and habitats? Why not visit the Council's biodiversity web pages and the section on Priority Habitats and Species in the county: <https://bit.ly/3gsZgyP>
- ➔ Discover what is in your area – take a closer look at what is around you – let us know. It's amazing!
- ➔ Manage areas in your local school, village and gardens for wildlife – make space for Nature.
- ➔ Get involved with a local conservation group – volunteer some of your time for Nature.

Species records in this ward held by the West Wales Biodiversity Information Centre - Dec 2020

Help record the species in your area

West Wales Biodiversity Information Centre (WWBIC) is a valuable source of information about the county's wildlife and anyone can contribute. Common species are often under-recorded so you don't need to be an expert.

WWBIC holds a lot of biological records for Dafen-Swiss Valley-Felinfoel (see the map above) but there are four 1-km squares with less than 50 species records. Can you help fill in these gaps?

Why not record the species that you see in your garden or when you are out and about? There are several ways you can record with WWBIC, by email, on the WWBIC website or using the LERC Wales App. More information can be found here: <https://www.wwbic.org.uk/wildlife-recording/>

There are many websites that can help with species identification. If you are on social media why not join West Wales Biological Recording (<http://www.facebook.com/groups/westwalesbiorecording/>)

Special sites in your area

This map highlights the special sites for wildlife in your ward and also places to walk and visit in Dafen-Swiss Valley-Felinfoel.

➡ In Carmarthenshire we have a network of 'designated' sites, protected at a national or international level – these are the best examples of particular habitats in Carmarthenshire or even the UK and/or places where important species live. They are the cornerstones of conservation work, protecting the core of our natural heritage.

Want to find out more? Visit the Natural Resources Wales website - <https://bit.ly/2YwEyB0>.

NB. These protected sites do not necessarily have public access unless they have a Public Right of Way passing through them or are Open Access Land (see next page).

➡ Locally we also have nature reserves with important habitats and species which are managed by a range of organisations. Find out more at: <https://bit.ly/2LcLJkM>

➔ Your ward has a network of Public Rights of Way (PROW). These footpaths are open to everyone to enjoy and a great way for you to explore your local area and the habitats and wildlife within it. The county also has areas of 'Open Access land'.

➔ Open Access land', under the CRow Act (2000), consists of open country (mountain, moor and heath land) and 'registered common land. It also includes areas of 'dedicated land' where owners, such as Natural Resources Wales, allow free access.. In these areas you can walk wherever you like, and in the NRW managed forests you can also ride a horse or a bike on the forest tracks, but please be considerate of other users.

Find out more at: <https://bit.ly/3n2tahp>

➔ PROWs include Footpaths, Bridleways, Restricted Byways and Byways Open to All Traffic. There are over 2400 km of PROW across Carmarthenshire providing different levels of off road public access from walking to horse riding and cycling, each has its own unique character, you may already have your own favourite. Find out more at:

<https://bit.ly/2K7k9VK>

➔ The maps in this profile are Ordnance Survey maps (OS) – they are a great way to help you find local Public Right of Way and Open Access Land either through paper maps or through their phone App. Find out more at: <https://bit.ly/2Wi52Mo>

➔ The County also boasts numerous designated cycle paths, many of which make up part of the National Cycle network and Carmarthenshire's Active Travel network. There is over 100 km of designated cycle path in the county. Find out more at: <https://bit.ly/3gQopVC> and <https://bit.ly/3gPcck8>

➔ When you are out and about - always follow the Countryside Code: <https://bit.ly/37hFjJS>

Local Walks/sites to explore

You may already have your own favourite walk in your patch, where you experience the seasonal changes throughout the year. You may walk the same route regularly, but wildlife will not. So, keep your eyes peeled there is always something new to see/experience. But why not try walking another way? You might see something different but also the same sights – just in a different way.

Please tell us about your favourite walk or place to visit - here are some ideas.

General

➔ There are four local **Ramblers** groups in Carmarthenshire that explore the county. Find out more about the Ramblers' groups in Carmarthenshire: <https://bit.ly/3r6xZZn>

➔ **Walking Well Carmarthenshire** is an initiative which aims to encourage people of all ages and abilities to take advantage of the physical, social and mental health benefits offered by walking in groups of like-minded people. It does this by setting up walking groups around the County. Find out more: <https://bit.ly/2J48FCc>

➔ The **Discover Carmarthenshire** website promotes local walk and cycle routes: <https://bit.ly/3r35xYi>
