Definitions

Full-time Student:

A full-time student is a person of any age who has indicated that they are a schoolchild or student in full-time education.

Schoolchildren and students in full-time education studying away from their family home are treated as usually resident at their term-time address.

Long-term Unemployed:

A person is defined as long-term unemployed at the time of the 2011 Census if they were unemployed and the year they last worked was 2009 or earlier.

National Statistics Socio-economic Classification (NS-SEC):

The National Statistics Socio-economic Classification (NS-SEC) provides an indication of socio-economic position based on occupation. It is an Office for National Statistics standard classification.

2011 Census data for Carmarthenshire County Council – Socio-economic Classification (Males)

To assign a person aged 16 to 74 to an NS-SEC category their occupation title is combined with information about their employment status, whether they are employed or self-employed and whether or not they supervise other employees. Full-time students are recorded in the 'full-time students' category regardless of whether they are economically active or not.

*The rebased version of NS-SEC used in census results uses occupation coded to SOC2010. More information about the classification can be found at <http://ons.gov.uk/ons/guide-method/classifications/current-standard-classifications/soc2010/soc2010-volume-3-ns-sec--rebased-on-soc2010--user-manual/index.html>
In 2011 Census results, because the census did not ask a question about the number of employees at a person's workplace, the reduced method of deriving NS-SEC (which does not require this information) is used.*

NS-SEC, Not Classified:

The sub-category of NS-SEC 'Occupation not stated or inadequately described' which usually forms part of the 'Not classified' category is not applicable in census results because missing answers are imputed.
