HIGHWAYS ACT 1980 / SECTION 184

NEW ROADS AND STREET WORKS ACT 1991 SECTIONS 84/85/86

The New Roads and Street Works Act 1991 introduced statutory regulations, procedures and Codes of Practice which will have to be followed when excavation work is to be carried out within the highway. For the purpose of Section 86 of the Act, all works for which a Section 184 of the Highways Act 1980 is required will be subject to the same legislative procedures and practices as contained in the New Roads and Street Works Act 1991.

Works carried out under Section 184 of the Highways Act 1980 are deemed as "major highway works" and accordingly, the references in Section 84 and 85 of the New Roads and Street Works Act 1991 to the Highway Authority shall also be construed as references to a person other than the Highway Authority for works executed under Section 184 (9) of the Highways Act 1980.

Accordingly, where an undertaker's apparatus in the Street is affected by the aforementioned work, a Section 85 Notice of the New Roads and Street Works Act 1991 may be issued by the applicant. The procedures for the measures needing to be taken in relation to the apparatus, including allowable costs, shall be in the manner prescribed in the Code of Practice entitled 'Measures Necessary Where Apparatus Is Affected By Major Works (Diversionary Works)'.

Where a person proposes to carry out the work specified in the application, the Highway Authority may give consent to execute those works in accordance with the plans approved and subject to the conditions of the consent and satisfactory completion of the following certificates:

INSURANCE INDEMNITY CERTIFICATE

The applicant shall indemnify and keep indemnified the Council against any claims in respect to injury, damage or loss arising out of works to which the consent relates, or the execution by any person of any works authorised by the consent. Such indemnity shall be as specified by the Council and the applicant will be required to submit a completed Insurance Certificate as evidence that the necessary insurance cover has been obtained.

WASTE DISPOSAL CERTIFICATE

The applicant must ensure that surplus material from the site for which the consent relates, is to be disposed of at sites licensed under current waste disposal legislation and subject to the terms and conditions imposed in that licensing. The applicant is required to submit a completed Waste Disposal Certificate for all sites he intends to use to deposit waste material referred to in the consent.

DEDDF PRIFFYRDD 1980 / ADRAN 184
DEDDF FFYRDD NEWYDD A GWEITHIAU STRYD 1991 ADRANNAU 84/85/86

Daeth Deddf Ffyrdd Newydd a Gweithiau Stryd 1991 â rheoliadau, gweithdrefnau a Chodau Ymarfer statudol yn ei sgîl y bydd yn rhaid eu dilyn wrth gloddio'r briffordd.
