

## **STATEMENT OF REASONS**

### **PROPOSED TRAFFIC CALMING MEASURE AT COPPERWORKS ROAD, LLANELLI**

Carmarthenshire County Council proposes to introduce a new traffic calming measure in the form of a raised plateau adjacent to Number 7 Copperworks Road in Llanelli, with the aim of reducing vehicle speeds near existing and proposed uncontrolled pedestrian crossing points and in the vicinity of public amenities.

The crossing has been repositioned following comments from the Transport for Wales Accessibility Panel, which requested that the new traffic calming measure be set slightly further back and centrally aligned with the footway on the northern side of Copperworks Road, adjacent to the Station Road junction.
